

Complaint Process

The goal of the A-C Valley athletic program is to offer opportunities for our student-athletes to grow as well-rounded individuals. We promote the mission of "Dream Big, Work Hard, and act Responsibly" in both academics as well as athletics.

The A-C Valley board of administrators understand that difficulties may arise between student-athletes and coaches, parents and coaches, coaches, and athletic administration. School board policy dictates that all involved participants follow the complaint process that utilizes a chain of responsibility.

Part of that process may include the formal submission of a complaint about a variety of reasons. Clicking on the link below will assist in streamlining the complaint process for all individuals involved.
